**I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.**

COMMENTS: Hearing about this effort to limit shipment of specially compounded prescriptions upsets me greatly. It took me a long time to find the right prescription and since I have had it I have felt better than I have felt in 10 years. I tried commercial prescriptions first and they did not meet my needs. Besides that, I can't think of one good reason that anyone but my doctor and myself should decide what medications I should use.
